

Definity[®] Corporate Information System

Definity Software's CIS application is a proven solution that will bring you closer to your customers and the bottom line. Integrated estimating and sales, operations, accounting, fleet management and more, CIS delivers the enterprise-wide operational efficiency that lets you truly focus on your business. Designed especially for specialty contracting, design/build, maintenance, and service companies — Definity CIS is the solution to your business system needs.

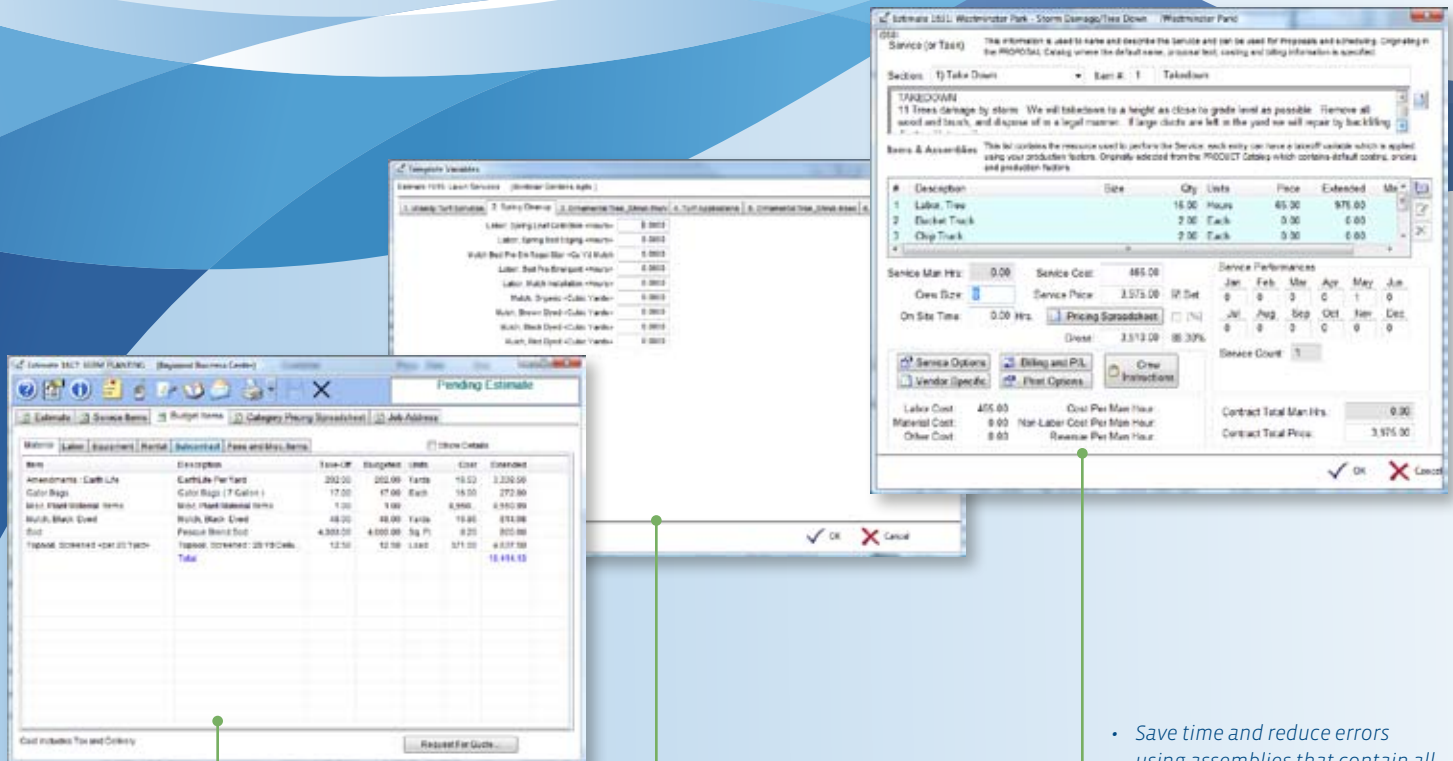

Estimating, proposals, contracts & jobs

Provide your team with the enhanced tools necessary to estimate the job accurately the first time. Bid competitively, eliminate risk, win contracts, and maximize profits using Definity CIS estimating and proposals.

- > Quickly generate accurate estimates
- > Reduce error using catalog assemblies
- > Customized takeoff saves time
- > Produce attractive and competitive proposals

Enhanced tools necessary to bid competitively and win contracts.

- Easily review all aspects of your estimate details within one single Definity form.
- Flexible estimating allows for control of contractors and subcontractor costs.
- Enjoy full two-way interoperability between Definity CIS and Microsoft Outlook® - create appointments or tasks directly from the Definity estimation form.
- Quickly create a request for a quote from a supplier, directly from the estimate.
- Easily make line item adjustments to stay competitive.

- Automate the flow of information using Definity takeoff tools for easy adjustments
- Calculate square footage, volumes or linear dimensions and understand exact materials
- Create consistent, accurate estimates with pre-determined take off calculations
- Take off information can be stored in the client/property record for quick retrieval and use on new estimates
- Fully customizable and extremely accurate, Definity takeoff tools help you grow your business

- Save time and reduce errors using assemblies that contain all product, equipment and labor needed.
- Set default or standard time and material costs associated with product catalog and assembly items.
- Drill down to each item to view detailed cost information
- Attach specific crew or instructions to the estimate.
- Flexible pricing sheet available for detailed review and quick decision making.
- Insight for review of service costs, service price, and margin for easy adjustments.
