

Definity[®] Corporate Information System

Definity Software's CIS application is a proven solution that will bring you closer to your customers and the bottom line. Integrated estimating and sales, operations, accounting, fleet management and more, CIS delivers the enterprise-wide operational efficiency that lets you truly focus on your business. Designed especially for specialty contracting, design/build, maintenance, and service companies — Definity CIS is the solution to your business system needs.

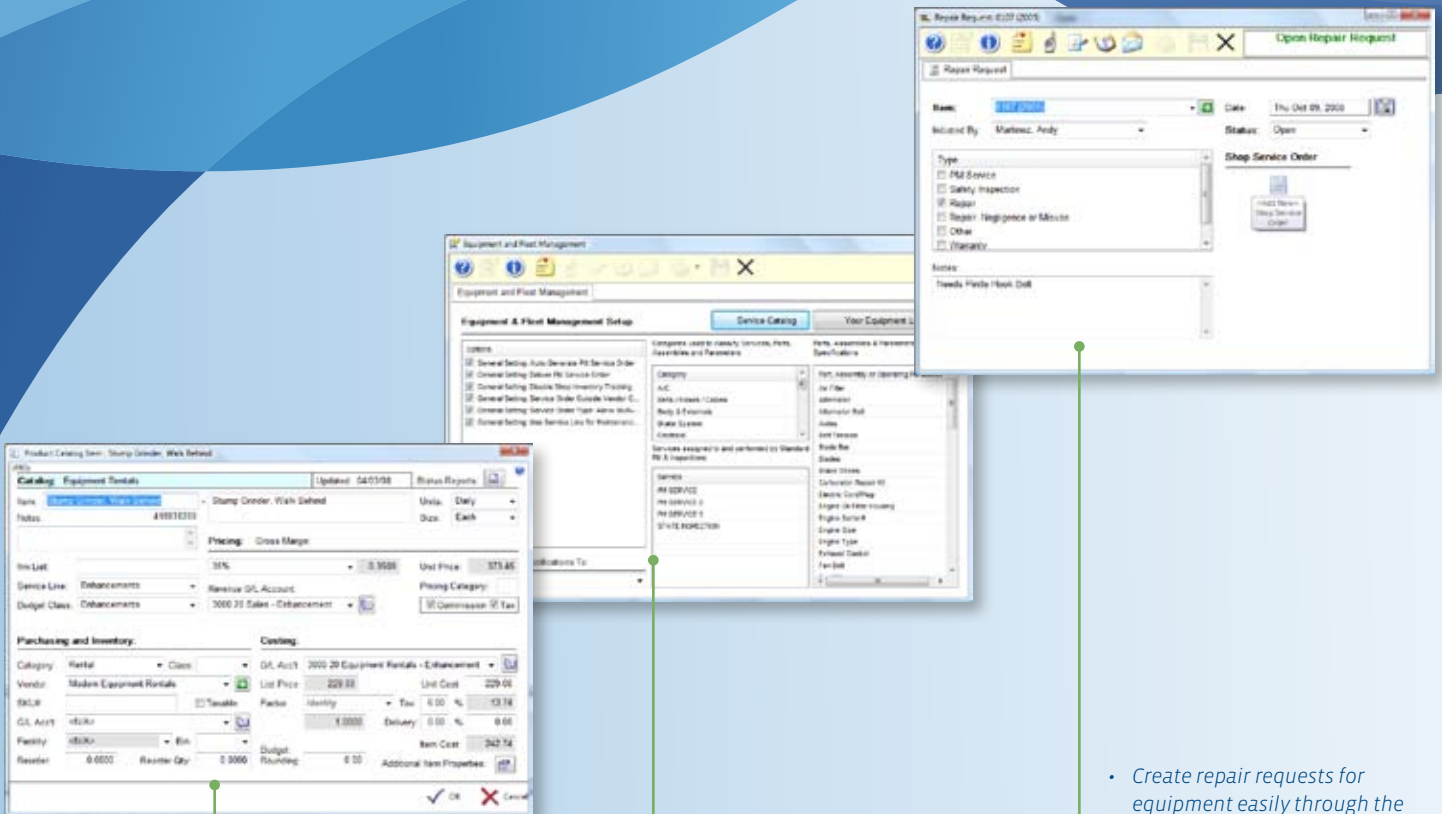

Equipment and Fleet Management

Track your maintenance cost, improve safety, optimize equipment and manage fleet operations with Definity CIS. Integrated tracking and service management provides a solution that has proven to reduce costs and improve competitive positioning. When every dollar counts turn to Definity CIS — gain better control and GROW your business.

- > Track utilization and operating costs
- > Automated fleet and equipment maintenance
- > Accurately track shop parts and labor costs
- > Automate loan payments and depreciation

Reduce expenditures and optimize your fleet operations — Definity CIS gives fleet managers the tools to get the job done right.

- Create customized equipment and service catalogs.
- Group service categories to allow for easy tracking and reporting.
- Drill down to each item to view detailed cost or labor information.
- Visibility to each item to determine repair vs. replace.

- Set and track equipment pricing, rental costs and depreciation figures.
- Assign service line, budget class and revenue account for easy reporting. Easily access vendor information and forecast inventory volumes.
- Set Vendor specific pricing for quick PO and invoice entry.

- Create repair requests for equipment easily through the Definity request form.
- Process a shop service order directly from the repair request.
- Enjoy full two-way interoperability between Definity CIS and Microsoft Outlook® — create appointments or email directly from the Definity repair request form.
- Automated workflow to make sure the requests are completed and documented.
